This guide intends to outline our products so that you have basic information and an overview of our International Individual Life Insurance solutions. It does not constitute financial or insurance advice. As with all insurance contracts, there are terms and conditions, which govern our policies. These are available on our website, and we recommend that you read these as well as consulting your financial adviser or insurance broker. They will provide you with full details of our products and be able to explain them in more depth to you. If you don't have a financial adviser or an insurance broker, please contact us and we will gladly put you in touch with one. We cannot issue a policy for anyone who is currently residing in the United States of America or any Mauritian national who is currently residing in the Republic of Mauritius.

Meet Julia. She purchased a Unisure International Individual Life Plan in January

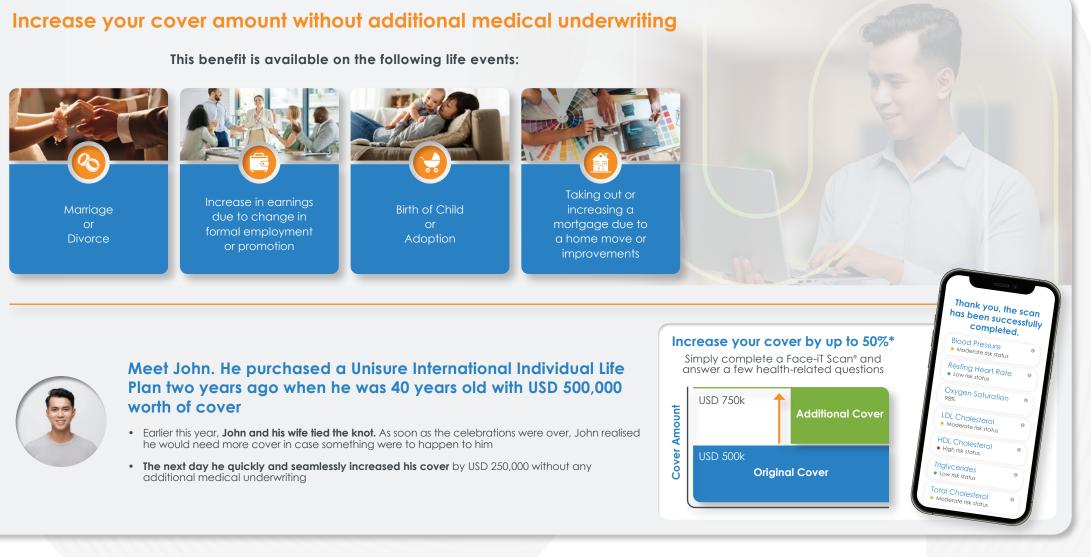

- She performed a Face-iT Scan[®] each quarter, scoring 75, 82, 78, and 85 in each quarter respectively
- In this way, **she gained a detailed understanding and awareness of her health.** Measuring her Face-iT Score enables her to take positive actions to improve and maintain her health
- At the end of the year, her average Face-iT Score from the four scans was 80, which gave her a 7.5% cashback on policy renewal
- Her friend, Jane, performed two scans, in quarters 1 and 3, with an average score of 75, rewarding her with a 3% premium cashback

*The scan calculates a personalised health score (out of 100) – a higher score indicates better health *Maximum cashback capped at 400 USD/GBP/EUR per annum *Note that the Face-iT Scan® is not a diagnostic tool. If you feel uncertain about the results shown, please contact your medical doctor to address and investigate any concerns

Flexible Cover Option ••

Add extra protection when you need it most

*Terms and Conditions apply

*The increase in cover is limited to 50% of the original insured amount up to a maximum of USD 250,000 and can only be exercised up to age 55. It is only available on Individual and Mortgage Protection Plans

Choose the Right Plan for Your Needs ••

Individual Life Plan

The purpose of International Life Insurance is to pay a lump sum benefit after you die, providing your loved ones with financial security should the unthinkable happen. Life insurance pays for your family's ongoing living costs, estate taxes, outstanding loans, the remaining cost of your children's education or other essential expenses.

Mortgage Protection Plan

Mortgage Protection pays a lump sum to cover the outstanding mortgage on your home or other properties. The level of cover reduces as your mortgage decreases over time. This cover provides you with the security of a fully paid home if the worst should happen.

Key Person Protection Plan

Key Person Protection can help a business protect itself from the sudden death of a key person who generates significant revenue because of their business relationships, knowledge, experience or skill set. This cover offsets the costs incurred through recruiting and training someone to replace the key person.

Shareholder Protection Plan

Shareholder Protection enables surviving shareholders to purchase the deceased owner's share of the business from the deceased owner's estate. This allows them to retain control of their former partner's shares and ensures the deceased owner's dependants can receive a payout instead of a share of the business.
